

Analytics

IR website analytics — know more

As your IR website host, we are able to provide you with comprehensive data that gives you an unparalleled understanding of your IR website's activity.

Gain in-depth insight into who is visiting your IR website, including **company, location, user paths, referral sources, viewed pages, and accessed files**. When these data points are combined they give you a clear picture of the behavior on your IR website.

Daily reporting

We pair the convenience of a daily report with hands-on training from the Equisolve team so you can leverage the data from the report and best understand what's behind the activity on your IR website.

Types of organizations that are identified:

- Banks
- Funds
- Institutions
- Regulators
- Hedge funds
- Venture capitalists
- Family offices
- Private equity
- Competitors
